

IMPORTANT TERMS OF OUR HOME EQUITY LINE OF CREDIT PLAN

This disclosure contains important information about our Home Equity Line of Credit Plan. You should read it carefully and keep a copy for your records.

AVAILABILITY OF TERMS: All of the terms described below are subject to change. If these terms change (other than the annual percentage rate) and you decide, as a result, not to enter into an agreement with us, you are entitled to a refund of any fees that you pay to us or anyone else in connection with your application.

SECURITY INTEREST: We will take a security interest in your home. You could lose your home if you do not meet the obligations in your agreement with us.

POSSIBLE ACTIONS: We can terminate your line, require you to pay us the entire outstanding balance in one payment, and charge you certain fees, if (1) you engage in fraud or material misrepresentation in connection with the plan; (2) you do not meet the repayment terms of this plan; or (3) your action or inaction adversely affects the collateral or our rights in the collateral.

We can refuse to make additional extensions of credit or reduce your credit limit if (1) any reasons mentioned above exist; (2) the value of the dwelling securing the line declines significantly below its appraised value for purposes of the line; (3) we reasonably believe that you will not be able to meet the repayment requirements due to a material change in your financial circumstances; (4) you are in default of a material obligation of the agreement; (5) government action prevents us from imposing the annual percentage rate provided for in the agreement; (6) the priority of our security interest is adversely affected by government action to the extent that the value of the security interest is less than 120 percent of the credit line; (7) a regulatory agency has notified us that continued advances would constitute an unsafe and unsound business practice, or (8) the maximum annual percentage rate is reached.

MINIMUM PAYMENT REQUIREMENTS: You can obtain credit advances for 10 years. This period is called the "draw period." At our option, we may renew or extend the draw period. After the draw period ends you will no longer be able to take advances. After the draw period ends the repayment period will begin. The length of the repayment period will be 10 years. You will be required to make monthly payments during the draw and repayment periods. During the draw period your payment will be 1.25% of the outstanding balance, each month, or \$100.00, whichever is greater. If the interest rate increases you will be required to make more payments until the end of the draw period.

At the beginning of the repayment period your payment will be recalculated. Your payment will be set to repay the outstanding balance, at the current annual percentage rate, over 120 monthly payments. A minimum payment of \$100.00 applies during the repayment period. Your payment will not change if the interest rate changes. If the interest rate

increases, you will be required to make more payments until the end of the repayment period. Your payment may not repay the outstanding balance by the end of the repayment period. You will then be required to make a single balloon payment at the maturity date. Unless otherwise required by applicable law, we are under no obligation to refinance the balloon payment at that time. You may be required to make payments out of other assets you own or find a lender, which may be us, willing to lend you money. If you refinance the balloon with us, you may have to pay some or all of the closing costs normally associated with a new loan. All payments will include all amounts past due and any amount by which you have exceeded your credit limit, and all other charges.

NEGATIVE AMORTIZATION: Under some circumstances your payment will not cover the finance charges (interest) that accrue and "negative amortization" will occur. Negative amortization will increase the amount that you owe and reduce the equity in your home.

MINIMUM PAYMENT EXAMPLE: If you made only the minimum monthly payment and took no other credit advances it would take 9 years 5 months to pay off a credit advance of \$10,000 at an **ANNUAL PERCENTAGE RATE** of 3.25%. During that period, you would make 112 payments of \$100.00 to \$125.00 and one (1) final payment of \$96.51.

FEES AND CHARGES: You may pay certain fees to third parties to open the plan. These fees generally total between \$0.00 and \$3,000.00. If you ask, we will provide you with an itemization of the fees you will have to pay to third parties.

PROPERTY INSURANCE: You must carry insurance on the property that secures this plan.

REFUNDABILITY OF FEES: If you decide not to enter into this plan within three days of receiving this disclosure and the home equity brochure, you are entitled to a refund of any fee you may have already paid.

ADDITIONAL HOME EQUITY PLANS: Please ask us about our other available home equity line of credit plans.

TAX DEDUCTIBILITY: You should consult a tax advisor regarding the deductibility of interest and charges for the plan.

VARIABLE RATE FEATURE: This plan has a variable rate feature and the annual percentage rate (corresponding to the periodic rate) and the number of payments you make, and the amount of a balloon payment, if any, may change as a result. The annual percentage rate includes only interest and no other costs.

The annual percentage rate is based on the value of an index. The index is the Prime Rate published in the Money Rates column of the *Wall Street Journal*. When a range of rates has been published the highest rate will be used. We will use the most recent index value available to us as of 10 days before the date of any annual percentage rate adjustment.

To determine the annual percentage rate that will apply to your account, we add a margin to the value of the index. Ask us for the current index value, margin and annual percentage rate. After you open a plan, rate information will be provided on periodic statements that we send you.

RATE CHANGES: The annual percentage rate can change on the first day of each month. There is no limit on the amount by which the annual percentage rate can change during any one year period. The maximum **ANNUAL PERCENTAGE RATE** that can apply is 15%.

MAXIMUM RATE AND PAYMENT EXAMPLES: During the draw period, if you had an outstanding balance of \$10,000, the minimum payment at the maximum **ANNUAL PERCENTAGE RATE** of 15% would be \$125.00. This percentage rate could be reached at the time of the 1st payment.

During the repayment period, if you had an outstanding balance of \$10,000, the minimum payment at the maximum **ANNUAL PERCENTAGE**

RATE of 15% would be \$161.33. This percentage rate could be reached at the time of the 1st payment.

MARGIN ADDED TO INDEX: The margin that applies to your plan will be based on your creditworthiness. Please ask the credit union what your particular margin will be.

HISTORICAL EXAMPLE: The following table shows how the annual percentage rate and the minimum payments for a single \$10,000 credit advance would have changed based on changes in the index over the past 15 years. The index values are from the first week ending in January of each year.

The table assumes that no additional credit advances were taken, that only the minimum payments were made, and that the rate remained constant during each year. It does not necessarily indicate how the index or your payments will change in the future.
